- 6 months work experience at HiskyTech as Front-End Developer.

16/11/2023 – CURRENT Pakistan
FRONT-END DEVELOPER ISLAMIA COLLEGE UNIVERSITY - FYP

- I developed a dynamic web chat application for the intra-departmental use of Islamia College University as my final year project
- The application utilized React, Node.js, and websocket for realtime messaging
- I implemented user authentication and data storage with MongoDB to ensure secure and reliable communication
- This project showcased my skills in full-stack development, particularly in building responsive and interactive front-end interfaces with React and integrating them with robust backend services.
